---

As a Full-stack JavaScript developer with over 2 years of experience, I am skilled in building high-quality websites, applications, and games using a variety of technologies and frameworks, including JavaScript, React, React Native, and Node.js. I have experience with front-end and back-end development, database management, and cloud infrastructure. I am a strong leader, and a skilled coding instructor, and have experience managing teams of engineers and designers. As a startup founder, I am passionate about using my skills and experience to bring innovative ideas to life.
